# PREPARE THE

## You can open a path for God's hope and grace!

Dear Partner and Friend,

**T**he incredible tragedy of the California wildfires that have devastated so many individuals and families over the past two months has, quite literally, hit close to home for Laurie and me. For a decade the Hollywood Hills were home to Laurie, our sons Caylan and Cody, and me. As we've watched the devastation and aftermath unfold in that area and so many others, we've been keenly aware of how this disaster has impacted friends and neighbors with which we shared our lives for so many years.

One of the most heartening aspects of this historic catastrophe has been the way in which both individual believers, as well as churches and strategic Christian organizations, have stepped in to help meet the overwhelming physical needs of those who have lost homes and more—and to offer prayer, encouragement, and the hope of Jesus.

We've heard many moving stories of both individual believers and local congregations in Southern California providing shelter, food, clothing, and other emergency help, as well as much needed spiritual support as thousands of families navigate this crisis. Of course, our good friend Franklin Graham and Samaritan's Purse, who have been on the ground in so many similar disasters over the years, have been present to help meet the tremendous needs of residents in California who have lost homes, belongings, and so much more.

Jesus makes it clear that there is a special blessing for those who see a need and reach out to meet it in the Name of Jesus. "... for I was hungry and you gave Me food," Jesus says; "I was thirsty and you gave Me drink; I was a stranger and you took Me in; I was naked and you clothed Me; I was sick and you visited Me; I was in prison and you came to Me" (Matthew 25:35-36, NKJV). Christ tells us that when we reach out to show kindness, compassion, healing, and hope to someone in need, we are actually doing it to Him personally (Matthew 25:40).

You see, when Jesus suffered and died on the cross, He did it

for every person on earth who has suffered in any way, and all who need the hope of forgiveness, salvation, healing and restoration that only He can bring. But, as the apostle Paul says, "How shall they believe in Him of whom they have not heard?" (Romans 10:14). The truth is that people who need Jesus won't be positioned to believe the good news unless we, as His followers, prepare the way for them.

God's Word says, "How beautiful are the feet of those who preach the gospel of peace, who bring glad tidings of good things!" (Romans 10:15). And while we're not all called to be preachers in the traditional sense, each of us can still share the "glad tidings" of God's love. St. Francis of Assisi put it this way, "Preach the gospel at all times—and if necessary use words."

Preparing the way for the hope and grace of Jesus in the lives of others is something each of us can do right where we are. Just like the Los Angeles fires that devastated the lives of countless individuals and families, in a similar way sin, suffering, and despair are rampant in the lives of people everywhere, from our next-door neighbors and people in our own communities, to individuals across the earth we'll never meet.

You might be wondering how you can prepare a pathway for the love of Christ to make an impact in the lives of others. The answer is that it can begin with something as simple as prayer—asking God to provide an opening for you to make a difference in someone's life. It could be a word of encouragement or a kind deed toward someone in your realm of influence. You might also find yourself ministering to the needs of the homeless, visiting and praying with someone in a nursing home, or even being part of a ministry to those in jail or prison in your area.

As a TBN viewer and partner, you have some unique opportunities to prepare the way for God to touch countless lives both near to you and around the world. For example, have you ever watched a life-changing program on TBN and thought of someone who could be touched and changed by that very program? It just
