

JUCE Monthly Report

In April we taped new episodes of *The Crew* that feature some exciting guests, including 2020 USA Olympic Chaplain, NASA research scientist Kantis Simmons, social media influencer and founder of SoulScripts, Jordan Lee, and former drug addict turned evangelist Dylan Chase. Also, we taped our monthly installments of *The Chuckie Perez Show*, *TX10*, *Rewind*, and *XVZ*.

Host Stephanie Ortiz on TX10

Earlier in the month we recorded two *Hot Off the Press* episodes, along with several additional interviews and online content at the West Coast Catalyst Conference held at Mariners Church in Irvine, California. The new Movie, *The Case for Christ*, is making a big impact in theaters and in people's lives around the country, and JUCE TV was among the few who were invited to cover the red carpet. We were able to get exclusive interviews with Lee and Leslie Strobel along with many principals of the movie.

We also attended the Planet Wisdom Youth Conference held at Calvary Church Santa Ana and the Harvest Crusade pastor's lunch meeting as we continued to network and maintain relationships with some of the area's pastors, youth pastors, and ministers.

JUCE Live continues to grow and receive positive feedback! This past month we had some great shows with Global Ventures president and founder John Smithwick, along with Church on the Move (Tulsa, OK) lead high school pastor Brandon Querin, rapper T-Bone, reggae band Christafari, hip hop artist J Givens, award winning author Arshay Copper, and YouTube sensation Tyler Sellers.

JUCE was on location for the 32nd annual Stellar Awards, where we taped several *Real Videos* episodes and also lots of fun interviews on the red carpet and backstage. JUCE host Sada K. said it was a special treat for her to have the opportunity to interview some of the gospel legends whom she grew up listening to.
