

# JUCE Monthly Report

It has been another exciting month of *JUCE Live* with full audiences and awesome guests like Nick Vujicic and great musical performances like recording artist Christafari. We are hearing numerous reports of viewers loving the show and how they have been impacted by it. One viewer reached out to our *JUCE Live After Party* host Melione after she performed on the show and said “Watching your spoken word on JUCE just delivered me hope again.” Hearing stories like these is what drives us to keep producing and growing this show so that it can impact more people around the world.

Also, we had some great guests on *Hot off the Press*, *The Crew*, and *The Chuckie Perez Show*. April will be our last month of taping *Hot off the Press* as we shift some of our resources to more web-specific content.

On March 11th we taped an episode of *Real Videos* with perennial chart toppers, Skillet, as they promote their contributions to *The Shack* movie sound track.

Things promise to stay busy as the JUCE team is preparing to cover both the Stellar Awards and Catalyst West Conference and launch an updated JUCE website later this month.
