

Programming & Production

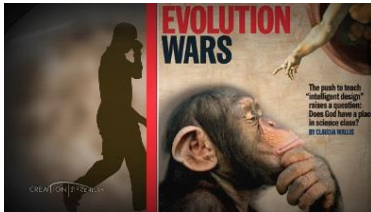

Leon Fontaine hosted *Praise* featuring guests Dr. Ravi Zacharias and Dr. Vince Vitale discussing "Jesus Among Secular Gods."

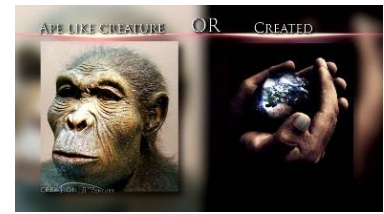

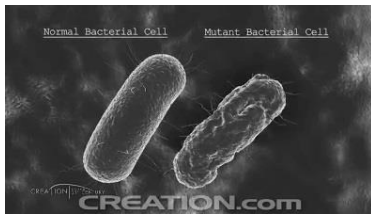

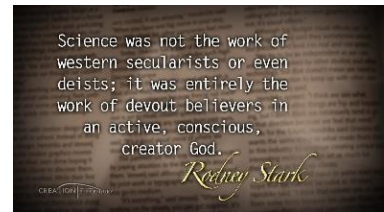

Samuel Segundo hosted *Praise SALSA Style!* with guests Ben Dailey, Pete Castro, and Justin Bridges, with music by Jessica Ybarra.

CREATION IN THE 21ST CENTURY

Creation in the 21st Century with host David Rives welcomed Dr. Robert Carter who said the Bible shreds all racial arguments. The reason we can all be one in Christ is because we are all one in Adam. Steve Ham told us that evolution as a theory did not originate with Darwin, but that Darwin took observational science and inserted a belief system that could not be observed. Dr. Jonathan Sarfati said that, long before Columbus, the idea of a spherically shaped earth had been introduced. The Bible played a vital role in developing the literal understanding of modern science. Bruce Malone explained that if you misinterpret the ice age, you misinterpret the age of all things.

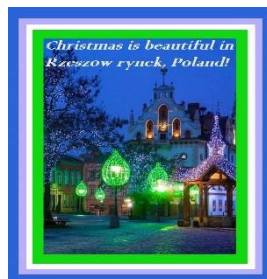

Joy in Our Town welcomed Dr. Harold Durham from Fresh Start Mentoring who helps people develop coping skills to deal with real life problems. Eldred Sawyer with Care Center Ministries helps strengthen the hands of the poor with the Great Commission. Lawrence Marshall with Integrity Mentors provides mentorship programs for low to moderate income communities. James Corbitt with Value UR Life helps teach gang members and substance abusers how to find their life's purpose. Darmetreis Kilgore with Finding Me Academy teaches youth how to be successful in life. Blake Fetterman with the Salvation Army showed us how to discern forms of behavior that signal domestic violence. Johnrice Newton with Tapestry Ministries helps those distressed by domestic abuse. David Bailey with Noggin Educational Foundation works to improve educational opportunities for disadvantaged students.
