April 2016

We had an exciting line up of guests in this month's *Praise the Lord* programs!

We have some wonderful local "*Praise the Lord*" hosts here in Oklahoma City at KTBO. Two of them have given of their time to host for us for several years here at Trinity Broadcasting. All of them do a great job and are appreciated so much in allowing Holy Spirit to lead them in their lives here in hosting and in their churches.

Jami Smith sang two of the many songs she has written. Her latest album are scriptures put to music for children to learn. Jami is a praise and worship leader for many different programs in Oklahoma City and around the state. She has a beautiful voice and the praise and worship that flows out of her heart is something I love to see and hear.

Kathy Patton and David Edwards discuss how Kathy began teaching others. She wasn't sure she was saved and really got into the Word. This started her on the road to mentoring and teaching classes. Her ministry is called "Within the Word".

Pastor Charles Martin visits with **Jason Lowe**, a defense attorney. Jason turned back to the Lord after hitting rock bottom in his life. His great desire is to give back to the community, helping all young people to have a second chance.

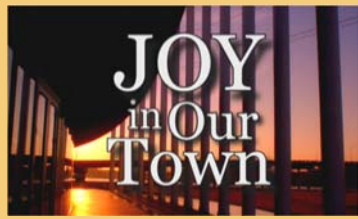

Aryanna Liddell sang on a local "*Praise the Lord*" with Pastor Charles Martin hosting. What a powerful voice she has to sing praises to the Lord!

Pastor Charles Martin visited with **Dr. Jacqueline Lang** during a "*Praise the Lord*" program. Dr. Lang was 11 years old when her mother walked out of her life two or three years later her dad was shot to death. She was in her teenage years and went down all the wrong roads trying to find peace. She did know to call on God and even when her mother left she knew to pray. Prayer in her life helped all along even though she was still trying to find herself. Did get her degree and now tries to help young people.. Says relax, take deep breath and PRA

David Edwards discusses with **Wayne Bristow** how years ago revivals were for two weeks. Was during one of those revivals the conviction became so strong Wayne came to the Lord and knew he had a calling on his life. He became an evangelist, but also a mentor to many young people, the host David Edwards being one of them. David traveled with Wayne Bristow for a short time. They visited about how everyone needs a mentor. Wayne always took time for young people.

Joy in Our Town produced some very interesting professionals from around OKC!

KTBO's *Joy in Our Town* hostess, **Dolly Velasquez**, has continued to do an amazing job of hosting and I receive so many comments from guests how great she is and makes them feel so comfortable.

Keith Bishop, clinical nutritionist, visited with *Joy in Our Town* hostess, Dolly Velasquez, about osteoarthritis and osteoporosis, two very prevalent diseases in our society today. There are some natural remedies such as fish oil and ginger to help with the pain of osteoarthritis. Bone density from osteoporosis can be improved with vitamins and exercise.

Danny Morgan, former Oklahoma house of representative, and now chairman of the Oklahoma Energy Resources Board, discussed with **Dolly Velasquez**, hostess for *Joy in Our Town* as to the work of OERB. The organization was formed to restore and clean the land and repair damages left from abandoned oil sites so the land can be productive again. They also visited about another service of OERB which is to go into the schools and educate students about the industry. Curriculum was developed and much of it is taught with hands on experiments.

Guest Blair Lanning and hostess Dolly Velasquez, discussed illiteracy and how it affects one's life. Literacy is not only the ability to read and write it is also the ability to take that information and improve one's life. OIC (Opportunities Industrialization Center) not only helps students of varying ages to read and write but also helps prepare them for their GED testing.

Janet Grigg, director of Seeworth Academy, visited with hostess, Dolly Velasquez, regarding what charter schools are and why there is a need for them.

The goal of charter schools is to meet the needs of each individual student. Seeworth Academy takes students who are at risk of not graduating and helps them achieve their goal. Janet Grigg has been with the school for many years and has such a love and passion for the young people at her school. The school is only two miles from our station and we have done some community outreach there and they have appreciated it so much.

City Rescue Mission of Oklahoma City has a wonderful facility and different programs for the homeless. One of the great programs is called The Bridge to Life. To stay for any period of time at City Rescue Mission a person needs to participate in this program., which is educational and preparing the person to find a job and eventually be able to support themselves and move on in their life. They have separate facilities for men and women and families. One of the latest needs at the Mission was diapers and baby wipes which we purchased and delivered for our community outreach project.

Thank you everyone for your thoughts and prayers during my recovery from a recent auto accident. A special thanks to the staff and our Regional Manager, Craig Nelson, for all their extra help. **Blessings to all!**
