A man called for prayer for his father who had blood clots in his throat. Just before the surgery, the doctor decided to use an instrument to see down his throat. Praise Jesus, the clots were gone and there was no trace of them whatsoever. "Thanking the Lord for the miracle!"

A woman called in with an incredible praise report. She had had fluid buildup in her arteries for two weeks, and then found out that there was fluid buildup in her heart as well. One night her pain was so intense that she had to be rushed to the hospital. On her way she decided to call TBN for prayer. When she arrived at the hospital, the doctor said the buildup was caused by a faulty kidney and intestines. She was prepped and ready to begin the process of extracting fluid from her heart. The doctor returned and scanned her body once again before the treatment. He was in shock because the fluid was completely gone, and her kidneys were working! An x-ray proved there was no liquid in her chest and heart. She received complete healing. Thank you, Jesus!

A woman called from Colorado with a praise report. She had been struggling with a number of life issues, but was really encouraged by one of TBN's prayer partners. She is very grateful to today for TBN and their prayers. She is doing better and now has hope and motivation for life.
