## Rally for Life at State Capitol

This month TBN Montgomery was on hand at the Rally for Life which took place on the steps at the state's capitol building on April 1st. The rally was a cry out from Alabamians for Proposal 16, which is a bill before the Alabama legislature to make abortion illegal in Alabama.

Hundreds gathered on the steps of the capitol to hear speeches, pray and worship God. It is stated that 16 babies are killed by abortion every day in the state of Alabama and that our governor has the power to stop abortion. David Day, a spokesperson for "So They All May Know Him" Outreach and guest on

*Joy in Our Town*, said he learned that most people going into clinics to get an abortion are usually very frightened and need to know that Jesus is the answer. He

says abortion is the issue but the root of the problem is sin. He said using the Holy Scriptures is helpful in convincing most people that God hates abortion and loves all life. Across the street from the rally at the capitol were protestors for the opposing point of view. Some Christians who took part in the rally went over to share God's love with those on the other side of the street.

WMCF employees Linda Bell and Jessica Norris participated in the Alabama State University Spring Career Fair this month.

Students and job seekers from around the city and region were on hand for the career fair. WMCF staff offered information about TBN and about career opportunities that may be available and listed on the TBN website. TBN / WMCF TV is an Equal Employment Opportunity company.
